Please direct to office@mtcheeseman.co.nz

- A review of the current Snowline Lodge alcohol policy has identified several options that The Committee will need to consider and decide from;
- The Committee is eager to receive input from club members to better understand how these options may positively and negatively impact their experiences at Snowline Lodge. This input will also be helpful to develop means of mitigating some of the negative impacts associated with each policy option;
- It is important to note that the submission process is not a vote or referendum for any particular option or outcome, but rather an opportunity for The Committee to better understand the wide range of factors associated with each policy option.
